Radiology Case Review Series: Interventional Radiology Matthew D. Tam, Weiping Wang

Access interactive cases on breast imaging for the best board review possible!

Part of *McGraw-Hill's Radiology Case Review Series*, this unique resource challenges you to look at a group of images, determine the diagnosis, answer related questions, and gauge your knowledge by reviewing the answer. It all adds up to the best interactive review of interventional radiology available--one that's ideal for certification or recertification, or as an incomparable clinical refresher.

Distinguished by a cohesive 2-page design, each volume in this series is filled with cases, annotated images, questions & answers, pearls, and relevant literature references that will efficiently prepare you for virtually any exam topic. The book's cases are crosslinked to an online component that includes full-resolution images, interactive image stacks, discussions and extra teaching points that reinforce your grasp of must-know interventional radiology topics.

Radiology Case Review Series Features

- **200 cases for each volume**, which consist of:
 - Precise, state-of-the-art images accompanied by questions and answers, descriptions of the entities, insightful clinical pearls, and reference lists
 - Intensive coverage of fundamental radiology principles, the latest diagnostic imaging techniques, radiology equipment, new technologies, and more
- **Unique 2-page format for each case**, which features:
 - Images with 5 questions on the right-hand page
 - Magnifications, annotations, and detailed answers on the verso page--*a benefit that you'll only find in this exceptional series!*
 - Informative, bulleted comments box that provides important additional context for each case
- **Cases organized and coded by difficulty level** allowing you to evaluate your proficiency before progressing to the next level
- **Radiology-relevant scrolling and stacking function**
- **A dedicated interactive website--accessible via scratch-off code for each volume in the series--enables you to:**
 - Scroll the images from each case in the text as well as stack images (display multiple views of an image)
 - Zoom in and out, or scroll up and down, to highlight specific details of a subject
 - Access additional images for each case using the case ID number from the text
