_____ Reviews from Goodreads: "I would like to thank Dr. Harley for a well-written, informative and handy book on belly fat problems. I especially liked the tips at the end. Well written, easily read: I recommend this book." "Like a breath of fresh air. A great addition to an admittedly crowded field." "I like this book. Summer is coming and I want this belly gone!" "Lots of great info. Once I started, I couldn't stop til it was finished. Very Informative, straight to the point, helpful information. Would recommend it highly." "A must read for anyone looking to lose weight." "Very helpful and easy to read book. A fast read. I'll be referring to it again in the future. Good motivational tool. (5 stars)" "Interesting and informative. More people in the western world die from overeating versus undereating is shocking!" "Simple, easy to follow guide about diet, exercise and our DNA" "Highly recommend.(5 stars)" "Chock full of common sense, solid advice, as well as information to help us understand why we become obese. "Skinny Genes" is a great tool for anyone who is looking to make that first step towards losing weight, or even if they've already been on other diets that maybe haven't worked that well in the past. I like the easy to read format and short, focused chapters, and the helpful bullet points. Recommend for anyone looking to lose a few and just need the encouragement to start." "I have a ton of diet books in my arsenal and am always looking for new ways to inspire and motivate me to eat healthier and give some creative solutions. I liked that this book. All the information was well-written in simple and clear manner that will be easily understood by just about anyone. (5 stars)"
