The Chinese imperial examination system is unique in traditional Chinese society with origins dating back 1,300 years, and has had a far-reaching impact not only on contemporary Chinese society, but also on government systems of other countries around the world. The system was originally created as a political institution to recruit officials to serve the Chinese imperial government. During the period of its use, from 605 through 1905, the imperial examination system played a central role in the Chinese imperial government.
