Transforming education policy Philip A. Woods

Education is in a state of continual change and schools ever more diverse. People want more participation and meaning in their lives; organisations want more creativity and flexibility. Building on these trends, this timely book argues that a new paradigm is emerging in education, sowing the seeds of a self-organising system that values holistic democracy. It is an essential read for anyone (academics, policy-makers, practitioners, students, parents, school sponsors and partners) who is interested in how education can broaden its horizons.
