AV-8B Harrier II Units of Operation Enduring Freedom (Combat Aircraft) Lon Nordeen

In the 1970s the USMC bought the AV-8A Harrier from the UK whose VTOL capabilities allowed it to serve as a tactical aircraft that could deploy with Marine forces on amphibious assault ships and provide air cover and close air support from large deck aircraft carriers. Third in a trilogy on US Marine Corps Harrier IIs in combat, it will be the first volume to cover the whole story of the AV-8B's service employment during peacekeeping operations and then in Afghanistan. With profile artwork for all frontline AV-8B units detailing the unique colours and markings applied by each squadron, this volume presents the widest variety of first-hand accounts of AV-8B air operations and missions by pilots and ground forces involved in Operation Enduring Freedom published to date.
