Art of Drawing the Human Body Inc. Sterling Publishing Co.

Budding artists can master the toughest and most treasured technique of all: portraying the beauty, grace, and personality of the human body. This wonderful tutorial, and a variety of inspiring sketches on every page, provide the solid technical foundation needed to depict every type of figure—young or old, male or female, standing, sitting, or in motion—and with style. Intricately detailed drawings, some with grids, help capture the correct proportions for head, torso, arms, and legs; add light and shadow for tonal depth; and create texture, volume, and expressive lines. A thorough study of the nude and the development of preliminary sketches make this an extraordinary value.
