The Interpretation of Nature and the Psyche

Carl Gustav Jung, Wolfgang Ernst Pauli

The Interpretation of Nature and the Psyche Carl Gustav Jung, Wolfgang Ernst Pauli

Carl Gustav Jung (1875-1961) and Wolfgang Ernst Pauli (1900 – 1958) were two of the greatest thinkers of modern times. Jung is the founder of Analytical Psychology and is one of the best known researchers in the field of Dream Interpretation and Symbolization. Pauli was one of the pioneers of Quantum Physics. In 1945, Pauli received the Nobel Prize in Physics after being nominated by Albert Einstein for his “decisive contribution through his discovery of a new law of Nature, the exclusion principle” involving spin theory underpinning the structure of matter and the whole of chemistry. Together they collaborated on this book that was first published in 1952 in German as *Naturerklärung und Psyche*. C. G. Jung: *Synchronizität als ein Prinzip akausaler Zusammenhänge*. W. Pauli: *Der Einfluss archetypischer Vorstellungen auf die Bildung naturwissenschaftlicher Theorien bei Kepler*. However, our reviewer, himself an eminent professor of mathematics, concludes, “After thoroughly studying their writings for many months now, I have come to see clearly that they are both utterly mad”.
