**An urgently needed primer on how to protect kids from the increasing threat of online predators**

Over 40 million Americans have seen *Dateline*'s ongoing popular series *To Catch a Predator*, which has caught over two hundred potential child predators. While the show exposed this epidemic, Chris Hansen's book, *To Catch a Predator*, shares the true stories of families who have been targeted by predators, revealing the tactics predators use to manipulate their victims and why even cautious families can be vulnerable to their attacks. He also offers suggestions from police officers, therapists, and child predators on the best approaches for preventing these crimes. Most critically, he provides parents with concrete steps they can take to protect their kids today, including how to initiate meaningful conversations with their children. *To Catch a Predator* teaches parents and children what they need to know before the next predator strikes.
