Food Protected Designation of Origin: Methodologies and Applications (Comprehensive Analytical Chemistry)

Food Protected Designation of Origin: Methodologies and Applications (Comprehensive Analytical Chemistry)

Protected designation of origin (PDO) taken together with other geographical indicators, such as protected geographical indication (PGI) and traditional specialty guaranteed (TSG), offer the consumer additional guarantees on the quality and authentication of foods. They are important tools that protect the names of regional foods, such as wines, cheeses, hams, sausages and olives, so that only foods that genuinely originate in a particular region are allowed to be identified as such.

The economic value of these regional foods, as well as the increased interest from consumers and the food industry about the traceability and origin of food, mean that it has become necessary to establish methods for PDO and PGI authentication based on the specific characteristics and chemical markers of these kinds of products.

This book offers a complete guide of the methods available to authenticate food PDO, beginning with an explanation of the analytical and chemometric methods available for PDO authentication, before looking at the main foods covered, PGI labels and the social and legal framework for food PGIs. It will be of interest to people engaged in the fields of food production, commercialization and consumption, as well as policymakers and control laboratories.

- Offers a complete guide to the methods available for food Protected Designation of Origin (PDO) authentication
- Explains the analytical and chemometric methods
- Focuses on the various food products covered by authentication labels

From reader reviews:

Mellisa White:

What do you think of book? It is just for students since they're still students or that for all people in the world, exactly what the best subject for that? Only you can be answered for that issue above. Every person has diverse personality and hobby for each other. Don't to be forced someone or something that they don't wish do that. You must know how great along with important the book Food Protected Designation of Origin: Methodologies and Applications (Comprehensive Analytical Chemistry). All type of book are you able to see on many options. You can look for the internet solutions or other social media.

Lillie Levine:

Book is to be different per grade. Book for children right up until adult are different content. As we know that book is very important for people. The book Food Protected Designation of Origin: Methodologies and Applications (Comprehensive Analytical Chemistry) was making you to know about other information and of course you can take more information. It doesn't matter what advantages for you. The e-book Food Protected Designation of Origin: Methodologies and Applications (Comprehensive Analytical Chemistry) is not only giving you more new information but also being your friend when you experience bored. You can spend your own personal spend time to read your e-book. Try to make relationship using the book Food Protected Designation of Origin: Methodologies and Applications (Comprehensive Analytical Chemistry). You never feel lose out for everything in case you read some books.

Jeremy Smith:

Do you have something that you like such as book? The publication lovers usually prefer to pick book like comic, brief story and the biggest some may be novel. Now, why not hoping Food Protected Designation of Origin: Methodologies and Applications (Comprehensive Analytical Chemistry) that give your enjoyment preference will be satisfied through reading this book. Reading practice all over the world can be said as the opportunity for people to know world a great deal better then how they react towards the world. It can't be claimed constantly that reading routine only for the geeky person but for all of you who wants to always be success person. So , for all of you who want to start looking at as your good habit, it is possible to pick Food Protected Designation of Origin: Methodologies and Applications (Comprehensive Analytical Chemistry) become your own starter.

Mary Bradford:

This Food Protected Designation of Origin: Methodologies and Applications (Comprehensive Analytical Chemistry) is new way for you who has fascination to look for some information mainly because it relief your hunger details. Getting deeper you onto it getting knowledge more you know or you who still having bit of digest in reading this Food Protected Designation of Origin: Methodologies and Applications (Comprehensive Analytical Chemistry) can be the light food to suit your needs because the information

inside this kind of book is easy to get simply by anyone. These books build itself in the form which can be reachable by anyone, yes I mean in the e-book type. People who think that in reserve form make them feel drowsy even dizzy this publication is the answer. So there is absolutely no in reading a guide especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss that! Just read this e-book style for your better life and knowledge.
