Barbarians to Angels: The Dark Ages Reconsidered

Peter S. Wells

Barbarians to Angels: The Dark Ages Reconsidered Peter S. Wells

A rich and surprising look at the robust European culture that thrived after the collapse of Rome.

The barbarians who destroyed the glory that was Rome demolished civilization along with it, and for the next four centuries the peasants and artisans of Europe barely held on. Random violence, mass migration, disease, and starvation were the only ways of life. This is the picture of the Dark Ages that most historians promote. But archaeology tells a different story. Peter Wells, one of the world's leading archaeologists, surveys the archaeological record to demonstrate that the Dark Ages were not dark at all. The kingdoms of Christendom that emerged starting in the ninth century sprang from a robust, previously little-known European culture, albeit one that left behind few written texts.
