Mark Savannah has already lived two lives and now he is looking for a third, but he is trapped by a past he can't escape.

Professor Zimmermann of the University of Buenos Aires has warned him: "They have been able to cover up the whole affair and destroy all the evidence".

Mark has discovered an extraordinary secret hidden deep in CIA director Colonel Reed's past and in the neural transplant operations of Biosketch Technologies Inc., a biotech company set up by Reed.

Mark came into contact with Biosketch Technologies Inc. and the diabolical Project "Transtem 1.1" while studying civilian and military neural transplant patients. As Mark attempts to uncover the truth, he is pursued by Anaïs Degann, a CIA agent with orders to terminate him.

Project "Transtem 1.1" is just the tip of the iceberg of Reed's dark plans and, in order to get his life back, Mark has to break the ties connecting Colonel Reed with Colonel Kozlov of the Russian counterintelligence service.

Reed's links to Russian intelligence threaten to compromise international security and Mark must stop him at all costs.
