Longing, Intimacy and Loneliness

Longing, Intimacy and Loneliness

This book examines the very basic human need to belong. It looks at the intimacy that is a cornerstone of such belonging and closeness, romantic relationships, which signify belonging in the Western world, and loneliness and love, which are inextricably linked to the subject. The book examines these constructs and considers other issues such as the basic human need to belong; the different love styles and how are they expressed; empathy, social support and humour and their influence on looseness and romantic elations; loneliness and marital adjustment; the influence of culture on relationships and the loneliness felt by the partner.

This book is based on papers that were originally published in the *Journal of Psychology*.
