Popular Culture, Geopolitics, and Identity (Human Geography in the Twenty-First Century: Issues and Applications) Jason Dittmer

This innovative and engaging textbook is the first to survey the field of popular geopolitics, exploring the relationship between popular culture and international relations from a geographical perspective. Jason Dittmer connects global issues with the questions of identity and subjectivity that we feel as individuals, arguing that who we think we are influences how we understand the world. Each chapter focuses on a specific theme—such as representation, narrative, and affect—by explaining the concept and then considering some of the key debates that have revolved around it. Finally, each chapter illustrates its concept with a concrete case study, including first-person shooter video games, blogging, and comic books. Students will enjoy the text's accessibility and colorful examples, and instructors will appreciate the way the book brings together a diverse, multidisciplinary literature and makes it understandable and relevant.

From reader reviews:

Kathleen Knight:

Information is provisions for people to get better life, information these days can get by anyone on everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider if those information which is inside the former life are challenging to be find than now could be taking seriously which one would work to believe or which one often the resource are convinced. If you get the unstable resource then you have it as your main information we will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take Popular Culture, Geopolitics, and Identity (Human Geography in the Twenty-First Century: Issues and Applications) as your daily resource information.

Jose Batey:

In this era globalization it is important to someone to find information. The information will make someone to understand the condition of the world. The fitness of the world makes the information simpler to share. You can find a lot of references to get information example: internet, classifieds, book, and soon. You will observe that now, a lot of publisher that will print many kinds of book. The particular book that recommended for your requirements is Popular Culture, Geopolitics, and Identity (Human Geography in the Twenty-First Century: Issues and Applications) this reserve consist a lot of the information in the condition of this world now. This specific book was represented just how can the world has grown up. The vocabulary styles that writer use for explain it is easy to understand. Often the writer made some analysis when he makes this book. This is why this book suited all of you.

Lorraine Paisley:

As a student exactly feel bored to help reading. If their teacher asked them to go to the library as well as to make summary for some e-book, they are complained. Just very little students that has reading's heart or real their interest. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading really. Any students feel that examining is not important, boring as well as can't see colorful photos on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Popular Culture, Geopolitics, and Identity (Human Geography in the Twenty-First Century: Issues and Applications) can make you truly feel more interested to read.

Sheila Collins:

Reading a e-book make you to get more knowledge from that. You can take knowledge and information coming from a book. Book is published or printed or outlined from each source that filled update of news. In this modern era like right now, many ways to get information are available for you actually. From media social similar to newspaper, magazines, science reserve, encyclopedia, reference book, fresh and comic. You

can add your understanding by that book. Are you hip to spend your spare time to spread out your book? Or just looking for the Popular Culture, Geopolitics, and Identity (Human Geography in the Twenty-First Century: Issues and Applications) when you necessary it?
