Fire and Plants (Population and Community Biology Series)

William J. Bond, B.W. van Wilgen

Fire and Plants (Population and Community Biology Series) William J. Bond, B.W. van Wilgen

Large regions of the world are regularly burnt either deliberately or naturally. However, despite the widespread occurrence of such fire-prone ecosystems, and considerable body of research on plant population biology in relation to fire, until now there have only been limited attempts at a coherent conceptual synthesis of the field for use by students or researchers.
