Amnon Meisels

Distributed Search by Constrained Agents (Advanced Information and Knowledge Processing) Amnon Meisels

This book presents a comprehensive discussion on the field of distributed constraints, its algorithms and its active research areas. The well defined model of distributed constraints satisfaction and optimization (DisCSPs/DisCOPs) can serve as the basis for the design and investigation of distributed search algorithms, of protocols and of negotiations and search. The book introduces distributed constraint satisfaction and optimization problems and describes the underlying model. Presenting a complete state of the art in DisCSP and DisCOP research, the following topics are explored: - Families of search algorithms on DisCSPs and DisCOPs; - Distributed constraint optimization; - Ordering Heuristics for DisCSP algorithms; - Performance measures; - Impact of communication quality on distributed search; - Privacy issues; - Non exhaustive search algorithms on DisCSPs; - Applications of DisCSPs. This thorough exposition of the many elements of distributed search algorithms for DisCSPs and DisCOPs will be an invaluable read for both researchers and practitioners.

From reader reviews:

Jennie Groth:

This Distributed Search by Constrained Agents (Advanced Information and Knowledge Processing) book is simply not ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is usually information inside this book incredible fresh, you will get info which is getting deeper an individual read a lot of information you will get. This kind of Distributed Search by Constrained Agents (Advanced Information and Knowledge Processing) without we know teach the one who examining it become critical in imagining and analyzing. Don't be worry Distributed Search by Constrained Agents (Advanced Information and Knowledge Processing) can bring whenever you are and not make your tote space or bookshelves' become full because you can have it in your lovely laptop even mobile phone. This Distributed Search by Constrained Agents (Advanced Information and Knowledge Processing) having excellent arrangement in word along with layout, so you will not really feel uninterested in reading.

Ann Gonzalez:

This book untitled Distributed Search by Constrained Agents (Advanced Information and Knowledge Processing) to be one of several books that will best seller in this year, that is because when you read this book you can get a lot of benefit in it. You will easily to buy that book in the book store or you can order it by using online. The publisher on this book sells the e-book too. It makes you more readily to read this book, because you can read this book in your Smartphone. So there is no reason for you to past this reserve from your list.

Michelle Morrow:

The book Distributed Search by Constrained Agents (Advanced Information and Knowledge Processing) will bring you to definitely the new experience of reading any book. The author style to elucidate the idea is very unique. When you try to find new book to study, this book very suited to you. The book Distributed Search by Constrained Agents (Advanced Information and Knowledge Processing) is much recommended to you to study. You can also get the e-book from official web site, so you can easier to read the book.

Jean Gonzales:

Distributed Search by Constrained Agents (Advanced Information and Knowledge Processing) can be one of your beginner books that are good idea. We recommend that straight away because this guide has good vocabulary that can increase your knowledge in words, easy to understand, bit entertaining but nevertheless delivering the information. The writer giving his/her effort to set every word into pleasure arrangement in writing Distributed Search by Constrained Agents (Advanced Information and Knowledge Processing) nevertheless doesn't forget the main position, giving the reader the hottest as well as based confirm resource information that maybe you can be certainly one of it. This great information can certainly drawn you into completely new stage of crucial thinking.
