2004 Book of Poetry Byron Stanton

This book of poetry by Byron Stanton represents the insights from a Native American who chose to isolate himself from the dominant culture that had brought his people so much pain and anguish. He looked to the natural world for answers and peace. He has few regrets for this decision even though many of his questions went unanswered and true peace had proven allusive and much like trying to clench water in his fist. Byron found spiritual guidance from a wide variety of mentors from different regional, cultural, and religious orientations resulting in a real sense of gratitude for all of the many blessings that have come to him along his long and colorful journey. People from all walks of life should find something helpful in their own search for truth and peace of mind and spirit. The honesty of his work comes from a deep seated desire to express his heart with very little concern with whether anyone agrees with him or not. It is refreshing to see someone writing for himself rather than trying to impress or appease the reader or anyone other than himself and the god of his heart.
