Creepy Creatures: Slugs Valerie Bodden

Creepy Creatures inspects the ground, observes plants, and peers into crevices to spotlight six more mini-beasts that scurry, fly, slide, or crawl. Each book matches clear text with up-close (and often startling) photos to give young readers an easy-to-follow introduction to the featured creature's body, growth process, behavior, food sources, and common habitats. Each title concludes with an activity.
