Electronic Resource Management: A Handbook

Louise Cole

Electronic Resource Management: A Handbook Louise Cole

A no-nonsense guide offering practitioners straight-forward solutions and support in managing electronic resources. As the importance of E-resources to library collections grows, the skills needed to create, develop, grow and manage them have become increasingly valuable to modern information services and professionals. This practical step-by-step toolkit gives you a thorough grounding in all aspects of e-resource management including selection of content, developing workflows and knowledge bases, technologies, resource discovery, analysis and troubleshooting. Up-to-date coverage of key issues such as authentication, licensing and user behaviour are interweaved with cross-sectoral case studies highlighting key principles, enabling the reader to deal with all the potential problems and complexities of this rapidly evolving role. This is an indispensable guide for anyone managing e-resources or creating and developing new electronic collections in academic, public, school or special libraries and also in archives and museums. It will also demonstrate the translation of theory into practice for LIS students and academics

From reader reviews:

Charles Davis:

As people who live in typically the modest era should be update about what going on or information even knowledge to make them keep up with the era which is always change and move ahead. Some of you maybe can update themselves by reading through books. It is a good choice in your case but the problems coming to an individual is you don't know which one you should start with. This Electronic Resource Management: A Handbook is our recommendation to make you keep up with the world. Why, since this book serves what you want and wish in this era.

Marlin Brogan:

Hey guys, do you desires to finds a new book to learn? May be the book with the headline Electronic Resource Management: A Handbook suitable to you? Often the book was written by famous writer in this era. The book untitled Electronic Resource Management: A Handbook is one of several books this everyone read now. This particular book was inspired a number of people in the world. When you read this publication you will enter the new age that you ever know before. The author explained their concept in the simple way, thus all of people can easily to know the core of this reserve. This book will give you a lots of information about this world now. To help you see the represented of the world on this book.

Kathleen Carroll:

Do you like reading a reserve? Confuse to looking for your chosen book? Or your book had been rare? Why so many query for the book? But any kind of people feel that they enjoy for reading. Some people likes reading, not only science book and also novel and Electronic Resource Management: A Handbook or perhaps others sources were given knowledge for you. After you know how the great a book, you feel would like to read more and more. Science e-book was created for teacher or maybe students especially. Those books are helping them to include their knowledge. In different case, beside science reserve, any other book likes Electronic Resource Management: A Handbook to make your spare time much more colorful. Many types of book like here.

Mary Cox:

As a university student exactly feel bored to help reading. If their teacher questioned them to go to the library in order to make summary for some guide, they are complained. Just minor students that has reading's internal or real their interest. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that looking at is not important, boring and also can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this Electronic Resource Management: A Handbook can make you really feel more interested to read.
