Hold Your Water: 68 Things You Need to Know to Keep Our Planet Blue Wyland, Steve Creech

Hold Your Water offers insight into the water and world around us. Taking a conversational approach to conservation, it dives into simple ways that even little old you can make a difference--all with a witty, and at times whimsical, slant on the world in which we live.

The Wyland Foundation is widely lauded by politicians and scientists alike for its practical insight and positive impact on our planet. Former Vice President Al Gore praised the group, saying, "Your organization makes an invaluable contribution to the effort to promote environmental awareness."

Hold Your Water is the latest in the organization's legacy of arming everyday people with straight-ahead insight and simple tips for keeping our planet blue. Written by two members of Wyland's staff, the book provides countless fascinating facts about our planet. For instance, did you realize that while two-thirds of the earth's surface is covered by water, only 3 percent of that water is safe to drink? And of that 3 percent, nearly two-thirds is locked up in polar ice caps?

The book offers easy ways for people to help preserve water and other related precious resources. Divided into more than 30 sections, this compendium illustrates how everyday activities such as car washing, showering, fertilizing--even 'pet poop' cleanup--can negatively impact the environment. It then delivers more than 100 tips and tidbits that will help you protect your planet.

Whether you are one of the nearly three-quarters of Americans who consider themselves environmentalists, or you just want to know more about the world in which you live, *Hold Your Water* is a book worth holding on to.
