The Geography of Wine: How Landscapes, Cultures, Terroir, and the Weather Make a Good Drop

Wine is more than taste, smell, and appearance—it is a reflection of a place and its people. Why is Bordeaux a great place for red wines? Why do some places produce Rieslings and others produce Chardonnay? A fun and fascinating examination of *terroir* (the French word for the geography of a vineyard) this book takes connoisseurs—and potential connoisseurs—on a tour of wine regions, and explains the principles geographers use to understand the critical factors that make up the “wine character” of a place. From the Loire Valley to Napa Valley, Madeira to South Africa, Australia to Chile, *The Geography of Wine* is an entertaining and informative introduction to viticulture for worldly wine lovers everywhere.
